## **Introduction**

### **Education Statistical Report Overview**

*Education statistical data serves a crucial role in informing policy makers, educators, and stakeholders about the trends, challenges, and achievements within the education sector. This statistical digest encompasses data from academic years spanning from 2000-2001 to 2022-2023, providing comprehensive insights into various facets of education in St. Vincent and the Grenadines. Information predating the 2000-2001 academic year, can be found in the 2012-2013 Education Statistical Digest which can be accessed online at [stats.gov.vc](https://stats.gov.vc) under the publications tab, or directly from [education.gov.vc/education/](https://education.gov.vc/education/) under the publications section. Additionally, it is available on the Government's website at [gov.vc](https://gov.vc) under the Ministry of Education and National Reconciliation tab.*

### **Purpose of Education Statistical Data**

*The purpose of compiling and disseminating education statistical data is multifaceted. It serves to provide a comprehensive view of educational trends, resource allocation, and performance indicators across various levels of education—from early childhood to tertiary institutions. By analysing student enrolment, performance metrics, assessment outcomes, financing trends, and staffing data, this report aids in identifying areas of improvement, evaluating policy effectiveness, and guiding strategic decision-making within the education sector. The data presented in this digest is disaggregated by gender, educational level, and district where feasible, offering insights into educational disparities and achievements across different demographic groups.*

*This statistical digest is a collaborative effort primarily prepared by the Education Planning Unit, in partnership with school leaders such as Deans, Principals, Head teachers, Early Childhood administrators, and their respective teams. Contributions from units and departments such as the Department of Libraries, Archives and Document Services, Examination and Assessment Unit and the Media Unit further enhanced the appearance of the document as well as the*

*comprehensiveness and accuracy of the data presented. Together, these stakeholders ensure that the Education Statistical Digest remains a reliable and necessary resource for shaping the future of education in St. Vincent and the Grenadines.*

## ***Foreword from the Minister of Education and National Reconciliation***

*Education is the cornerstone of our nation's quest to build a modern post-colonial economy and the foundation upon which we build a prosperous society. It is therefore, with great pride and a deep sense of responsibility that we present this year's Education Statistical Digest, a comprehensive compilation of data that provides invaluable insights into our national education system.*

*This digest serves as a vital resource for policymakers, educators, researchers, and all stakeholders committed to advancing education in our country. Within these pages, you will find detailed statistics on student enrollment, teacher demographics, academic performance, and much more. By examining these data trends, we can identify our successes, confront our challenges, and formulate evidence-based strategies to enhance the quality and accessibility of education for all.*

*The information presented in this digest is a testament to the collective efforts of our educators, administrators, and policymakers, who work tirelessly to ensure that every student has the opportunity to succeed. Their dedication and commitment to excellence are reflected in the progress we have made and the goals we continue to pursue.*

*Let us, on our way forward, remain steadfast in our commitment to provide a high-quality education for every child. We can, by leveraging the data and insights contained in this digest, drive meaningful change and create an education system that empowers all learners to reach their fullest potential.*

*We extend our heartfelt gratitude to all those who have contributed to the creation of this digest and to the ongoing improvement of our education system. Together, we can build a brighter future for our nation.*

*Sincerely,*

*Curtis M. King*

*Minister of Education and National Reconciliation*

### ***Message from the Permanent Secretary – Mr Myccle Burke***

*The contents of the 2022-23 Education Statistical Digest are the product of different instruments utilized to gather pertinent information on the education sector. The publication of this document is an annual event that attempts to present a comprehensive review of the sector's performance. This edition of Statistical Digest is published in an unprecedented time of enormous challenges. It must be noted that documents do not capture real-time data, but efforts are afoot to address this matter through the full implementation of an Education Management Information System. The identification of trends and critical insights can still be gleaned from the latest edition of the Digest.*

*There is a growing need to ensure that education is adaptive and possesses a sufficient degree of dynamism that necessitates timely response in addressing the diverse needs of society. Advances in technology have virtually redefined lesson instruction and learning. Remote learning has increased in popularity and frequency as it pertains to schooling in the period of multiple pandemics. Globally, there has been evidence of learning loss resulting from disruption in instructional time. St. Vincent and the Grenadines is by no means insulated from these contemporary challenges.*

*A detailed comparative examination of the data captured in the 2022-23 Digest reveals the recovery of learning is occurring. The investments of the State are paying dividends as there are visible improvements in the sector. There are however areas of concern that a worth addressing. Some of these are as follows:*

- High student dropout rates, particularly among males*
- Disparity in student performance according to gender*
- Student repetition at the primary and secondary level*
- Declining student intake at the primary level*
- Decreased student numbers in the rural areas and coinciding increases in the urban areas.*

*Data gathering as a strategic response to challenges in the education system is of utmost priority to the Ministry of Education. The necessary resources will be directed at addressing identified gaps in the education system. The Education Statistical Digest is a rich source of useful information and all stakeholders are invited to avail themselves of its contents to aid decision making.*

**Message from the Chief Education Officer – Mrs. Kay Martin-Jack**

*It is with great satisfaction that the Ministry of Education and National Reconciliation presents the 2022-23 Annual Statistical Digest which brings important data together concerning educational matters. This comprehensive document is a testament to our commitment to use data-driven decision-making in the education sector.*

*This report is not merely a compilation of numbers; it is a roadmap for the future. The insights gleaned from the data will inform our strategic planning, resource allocation, and policy development. This information ought to be used to enhance teaching and learning, improve educational outcomes, and create a more equitable and inclusive education system.*

*I wish to acknowledge the hard work and dedication of the data collection team whose efforts have made this report possible.*

*Consequently, I encourage all stakeholders to carefully examine the report and to use it as a catalyst for dialogue and collaboration. Together, we can use the data to create actions that build a stronger, more resilient education system as well as learners who are equipped to face the challenges of the 21<sup>st</sup> Century.*

*Kay Martin-Jack (Mrs.)  
Chief Education Officer*

## *Definitions for Selected Indicators for Monitoring of the Education Sector*

### **ACCESS AND PARTICIPATION INDICATORS**

#### ***Net Enrolment Ratio in Early Childhood Care and Education (ECCE)***

*Total number of children enrolled in early childhood care and education programs, 0-2 and 3-4, expressed as a percentage of the population of the using the corresponding cohorts. This indicator measures the general level of participation of young children in ECCE programs. It also indicates a country's capacity to prepare young children for primary education.*

#### ***Gross Intake Ratio (GIR) in the First Grade of Primary Education***

*Total number of new entrants in the first grade of primary education, regardless of age, expressed as a percentage of the population at the official primary school-entrance age. This indicates the general level of access to primary education. It also indicates the capacity of the education system to provide access to Kindergarten for the official school-entrance age population.*

#### ***Net Intake Rate (NIR) in the First Grade of Primary Education***

*New entrants in the first grade of primary education that are of the official primary school-entrance age, expressed as a percentage of the population of the same age. It is the norm that some students may enter the primary system just prior to their 5th birthday.*

#### ***Gross Enrolment Ratio (GER)***

*Total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a given school year. The GER shows the general level of participation in a given level of education. It indicates the capacity of the education system to enroll students of a particular age group. It can also be a complementary indicator to net enrolment rate (NER) by indicating the extent of over-aged and under-aged enrolment.*

### **Net Enrolment Rate (NER)**

*This refers to the enrolment of the official age group for a given level of education expressed as a percentage of the corresponding population of the official age group. The NER reflects the extent of coverage in a given level of education of children and youths belonging to the official age group corresponding to the given level of education.*

### **Age Specific Enrolment Rate (ASER)**

*Enrolment of a specific single age enrolled, irrespective of the level of education, as a percentage of the population of the same age. It is the extent of the educational participation of a specific age cohort.*

### **Percentage of Private Enrolment**

*Enrolment in private educational institutions at a given level of education expressed as a percentage of total enrolment at the same level. The measure provides the relative weight of private education in terms of enrolment, hence the scale and capacity of private education within a country.*

## **INTERNAL EFFICIENCY INDICATORS**

### **Promotion Rate by Grade**

*Proportion of pupils from a cohort enrolled in a specific grade of a given school year who study in the next grade in the following school year. Promotion measures the performance of the education system in advancing pupils from a cohort from grade to grade, and its effect on the internal efficiency of educational systems. It is also a key indicator for analyzing and projecting pupil flows from grade to grade within the educational cycle.*

### **Repetition Rate by Grade (RR)**

*Proportion of pupils from a cohort enrolled in a specific grade at a given school year who remain in the same grade in the following school year. Repetition shows the rate at which*

*pupils from a cohort repeat a grade, and its effect on the internal efficiency of educational systems. In addition, it is one of the key indicators for analyzing and projecting pupil flows from grade to grade within the educational cycle.*

### ***Dropout Rate by Grade (DR)***

*Proportion of pupils from a cohort enrolled in a given grade at a given school year who are no longer enrolled in the following school year. Premature exiting measures the phenomenon of pupils from a cohort leaving school without completion, and its effect on the internal efficiency of educational systems. In addition, it is one of the key indicators for analyzing and projecting pupil flows from grade to grade within the educational cycle.*

### ***Transition Rate (TR)***

*The number of students admitted to the first grade of a higher level of education in a given year, expressed as a percentage of the number of students enrolled in the final grade of the lower level of education in the previous year. Transitioning to a higher cycle conveys information on the degree of access or transition from one cycle or level of education to a higher one. Viewed from the lower cycle or level of education, it is considered as an output indicator, viewed from the higher educational cycle or level, it constitutes an indicator of access. It can also help in assessing the relative selectivity of an education system, which can be due to pedagogical or financial requirements.*

### ***Pupil-Teacher Ratio (PTR)***

*This is the average number of pupils per teacher at a specific level of education in a given school year. To measure the level of human resources input in terms of the number of teachers in relation to the size of the pupil population. The results can be compared with established national norms on the number of pupils per teacher for each level or type of education.*

### ***Percentage of Trained Teachers***

*Number of teachers who have received the minimum organized teacher training (pre-service or in-service) required for teaching at the specified level of education in the given country, expressed as a percentage of the total number of teachers at the same level of education. This measures the proportion of teachers trained in pedagogical skills, according to national standards, to effectively teach and use the available instructional materials. It reveals also a country's commitment to invest in the development of its human capital involved in teaching activities.*

### ***Out-of-School Children***

*Children in the official primary school age range who are not enrolled in either primary or secondary schools. To identify the size of the population in the official primary school age range who should be targeted for policies and efforts in achieving universal primary education.*

## **FINANCING INDICATORS**

### ***Public Expenditure on Education as a Percentage of Gross Domestic Product***

*Total public expenditure on education (current and capital) expressed as a percentage of the Gross Domestic Product (GDP) in a given financial year. This indicator shows the proportion of a country's domestic production generated during a given financial year that has been spent by government authorities on education.*

### ***Public Expenditure on Education as a Percentage of Total Government Expenditure***

*Total public expenditure on education (current and capital) expressed as a percentage of total government expenditure in a given financial year. It shows a government's policy emphasis on education relative to the perceived value of other public investments. It reflects also the commitment of a government to invest in human capital development.*

### ***Percentage Distribution of Public Current Expenditure on Education by Level***

*Public current expenditure for each level of education, expressed as a percentage of total public current expenditure on education. The measure shows how financial resources for*

*education have been distributed across the different levels or stages of education. It measures the relative emphasis of government spending on a particular level of education within the overall educational expenditure.*

#### ***Public Current Expenditure per Pupil as a Percentage of Gross Domestic Production per Capita***

*Public current expenditure per pupil at each level of education, expressed as a percentage of GDP per capita in a given financial year. This is the share of per capita income spent on each pupil. It helps in assessing a country's level of investment in human capital development. When calculated by level of education, it also indicates the relative costs and emphasis placed by the country on a particular level of education.*

#### ***Educational Attainment of the Population Aged 15-24 Years and Above***

*The percentage distribution of population aged 15-24 years and above according to the highest level of education attained or completed with reference to ISCED. To show the educational composition of the population aged 15-24 years and above, hence the stock and quality of human capital within a country, so as to gauge needs and establish policies for upgrading it. This indicator also reflects the structure and performance of the education system and its accumulated impact on human capital formation.*

#### ***Percentage Distribution of Enrolment in Secondary Education by Type of Education Program***

*Percentage distribution of students enrolled in secondary education, according to the orientation of the education program, i.e. general and vocational/technical education, including teacher training. To reflect the orientation and capacity of secondary education programs as well as the potential supply of skilled workers in different specializations.*

### **Gross Primary Graduation Ratio (GPGR)**

*Total number of graduates from the last grade of primary education, regardless of age, expressed as a percentage of the population at the theoretical graduation age for primary. It is an indication of the general level of primary education graduation. This proxy measure of primary completion reports the current primary outputs stemming from previous years of schooling and past education policies on entrance to primary education. It also indicates the capacity of the education system to provide primary graduation for the theoretical graduation age population.*

### **Gender Parity Index (GPI)**

*The ratio of female to male values of a given indicator. The GPI measures progress towards gender parity in education participation and/or learning opportunities available for women in relation to those available to men. It also reflects the level of women's empowerment in society.*

### **Youth Literacy Rate**

*The number of persons aged 15 to 24 years who can both read and write with understanding a short simple statement on their everyday life, divided by the population in that age group. Generally, 'literacy' also encompasses 'numeracy', the ability to make simple arithmetic calculations. The literacy rate reflects recent outcomes of the basic education process. It is a summary measure of the effectiveness of the education system.*

## **Early Childhood Education**

*This segment of the educational statistical digest provides insights into Early Childhood care and education in St. Vincent and the Grenadines, following the guidelines set by the International Standard Classification of Education (ISCED) 2011. Early childhood education, as defined by ISCED 2011, encompasses a comprehensive range of learning and educational activities aimed at nurturing children's cognitive, physical, social, and emotional development. It introduces young children to structured instruction outside the familial environment, equipping them with foundational skills necessary for academic readiness and facilitating their transition into primary education.*

*As per the latest annual school survey (2022-23), St. Vincent and the Grenadines currently hosts one hundred and ten (110) Early Childhood institutions, reflecting a slight increase compared to the previous academic year's count of one hundred and eight (108) institutions. Among these, fifteen (15) are government-owned and operated, while the remaining ninety-five (95) are privately owned.*

*Over the same period, overall enrollment in Early Childhood institutions experienced a notable rise of almost seventeen percent (17%), increasing from two thousand seven hundred and seventy-three (2773) to three thousand two hundred and thirty-seven (3237) children. Of these enrolled children, approximately one-third ( $\frac{1}{3}$ ), totaling one thousand and seventy-two (1072), fall within the age group of 0-2 years, commonly referred to as daycare, while the remaining two thousand one hundred and sixty-five (2165) are aged 3-4+, classified as preschool attendees. In terms of gender distribution, there is a slight predominance of males, accounting for just over fifty percent (50.48%) of the total enrollment, with one thousand six hundred and thirty-four (1634) male students compared to one thousand six hundred and three (1603) female students.*

*Furthermore, the number of early childhood practitioners has seen an increase compared to the previous academic year, rising from three hundred and thirty-two (332) to three hundred and seventy-one (371), marking a growth rate of close to twelve percent (11.8%).*

*The statistics presented shed light on the evolving landscape of Early Childhood Care and Education in St. Vincent and the Grenadines, showcasing both quantitative growth in institutional numbers and enrollment figures, as well as qualitative enhancements through the augmented presence of early childhood practitioners. These developments underscore the nation's commitment to fostering holistic development among its youngest citizens, laying a solid foundation for their future educational journeys. As St. Vincent and the Grenadines continues to prioritize early childhood education, it sets a promising trajectory for the comprehensive growth and development of its youth, thereby contributing to the nation's socio-economic prosperity and long-term sustainability.*

## **Primary Education**

*This section provides an overview of primary education in St. Vincent and the Grenadines, adhering to the international standard classification of education 2011. Primary education aims to equip students with foundational skills in literacy, numeracy, and overall personal development, thereby laying a strong groundwork for subsequent academic pursuits, particularly in lower secondary education. The focus of primary education is on imparting fundamental knowledge and skills without significant specialization.*

*During the academic year 2022/23, St. Vincent and the Grenadines saw a total enrollment of 12,163 students across 67 primary institutions. Among these students, 6,023 were female, and 6,140 were male. Of the total enrollment, 1,369 students were registered in 11 government-assisted primary institutions, with the majority, 10,794 students, enrolled in government-run institutions.*

*Across the 67 primary institutions, there are 993 teachers, with approximately 80% (782 teachers) being formally trained. Notably, female teachers constitute around 88% of the primary school teaching cohort, while male teachers make up just over 12% of the total number.*

*The primary education system in St. Vincent and the Grenadines boasts low dropout and repetition rates, with less than 1% of students leaving school and a repetition rate of under 2%. However, it's worth highlighting that male students exhibit double the repetition and dropout rates compared to their female counterparts. District 6 recorded the highest number of repeaters, with 50 out of 226 students, while Districts 13 and 4 had the highest percentage of repeaters, each surpassing 5% of students repeating a grade.*

*In 2014, the Caribbean Primary Exit Assessment (CPEA) replaced the Common Entrance Examinations, becoming the standardized assessment for primary school leavers. The CPEA evaluates students' proficiency in essential literacies required for transition to higher levels of education. Since its implementation, the pass rates have generally exceeded 80%, with females consistently outperforming males.*

*Overall, primary education in St. Vincent and the Grenadines emphasizes foundational skills and personal development, with a strong focus on literacy, numeracy, and preparing students for future academic endeavors. While the system demonstrates commendable success in minimizing dropout and repetition rates, there are disparities between genders that warrant attention and targeted interventions to ensure equitable educational outcomes for all students.*

## **Special Needs Education**

*This section of the digest provides an overview of special needs education in St. Vincent and the Grenadines during the academic year 2022/23. Special needs education, as defined by the International Standard Classification of Education (ISCED 2011), aims to facilitate the learning of individuals who require additional support and adaptive pedagogical methods due to various reasons, such as physical, behavioral, intellectual, emotional, or social disadvantages. Educational programs in this field may closely resemble the regular curriculum but are tailored to address individuals' specific needs by offering specialized resources, personnel, equipment, and modified learning objectives.*

*In St. Vincent and the Grenadines, there are presently three special needs education centers located in Georgetown, Kingstown, and Bequia. Throughout the academic year 2022/23, these centers collectively served a total of 101 students, comprising 67 male and 34 female students. Notably, the special needs education center in Kingstown accommodated the highest student enrollment, with a total of 60 students.*

*Across the three centers, there are a total of 21 teachers dedicated to special needs education, out of which 13 are trained professionals. These educators play a crucial role in providing tailored support and guidance to students with diverse learning needs, ensuring their participation and progress within the educational program.*

*The allocation of resources and personnel in special needs education reflects the commitment of St. Vincent and the Grenadines to inclusivity and providing equal opportunities for all learners. By offering specialized centers equipped with trained teachers and appropriate resources, the educational system aims to address the unique requirements of students with disabilities or other challenges, thereby fostering their academic and personal development.*

*Furthermore, the provision of special needs education within existing educational frameworks demonstrates a recognition of the importance of integration and mainstreaming, allowing students with diverse needs to participate in the broader educational community while receiving tailored support.*

*In summary, the special needs education landscape in St. Vincent and the Grenadines during the academic year 2022/23 underscores a concerted effort to meet the educational needs of all learners. Through specialized centers, trained professionals, and tailored resources, the country endeavors to ensure that students with diverse learning requirements receive the support they need to thrive academically and socially.*

## **Secondary Education**

*This section presents an overview of secondary education in St. Vincent and the Grenadines during the academic year 2022/23. Secondary education serves as a continuation of primary education, imparting knowledge and skills to prepare students for various pathways, including entry into the workforce, as well as further non-tertiary and tertiary education. It operates at an intermediate level of complexity.*

*During the 2022/23 academic year, a total of 9,459 students were enrolled in the island's 29 secondary schools. Among these students, 4,769 were male, and 4,690 were female.*

*Spread across these 29 institutions, there were 822 teaching staff members. Of these, 503 are trained teachers, constituting just over 61% of the total teaching staff. The teaching workforce was predominantly female, with 560 female teachers and 262 male teachers.*

*In terms of student retention, the dropout rate for the 2022/23 academic year was less than 2%, totaling 178 students. Notably, over 70% of these dropouts occurred between forms 3 and 4, with male students comprising approximately 70% of the total dropout figure, accounting for 125 individuals.*

*The UNESCO Institute for Statistics suggests that an ideal repetition rate should approach zero percent. A high repetition rate indicates issues within the educational system's internal efficiency and could signify inadequate instruction. Analysing repetition rates across grades can pinpoint specific areas needing further examination for causes and solutions.*

*During the 2022/23 reporting period, the overall repetition rate surpassed 13%, with males exhibiting a significantly higher repetition rate, almost twice that of females. Furthermore, the percentage of students repeating a grade within the same academic year neared 14%, with 1,307 students identified as repeaters. Among these, male students accounted for nearly 65% of the total, comprising 839 individuals repeating grades.*

*Further examination of the data reveals that the majority of male repetitions occurred between first form and third form, representing over 80% of the total male repetitions, with a cumulative count of 701 boys repeating across these respective forms. Conversely, female repetitions were most concentrated between second form and fourth form, constituting over 75% of the total female repetitions during the same period, with a combined total of 357 girls repeating across these respective forms.*

*In summary, secondary education in St. Vincent and the Grenadines during the 2022/23 academic year enrolled a significant number of students across various institutions. The teaching workforce, although predominantly female, included a substantial number of trained educators. While the dropout rate was relatively low, a notable proportion of students repeated grades, particularly males. These insights provide a snapshot of the educational landscape and highlight areas for potential intervention and improvement in the secondary education system.*

## *Technical and Vocational Education and Training (TVET)*

*In St. Vincent and the Grenadines, Technical and Vocational Education and Training (TVET) programs play a pivotal role in lifelong learning at secondary, post-secondary, and tertiary levels. These programs are designed to equip students with the skills necessary for specific occupations or trades, integrating work-based learning, continuing training, and professional development. Successful completion of these programs leads to certifications such as the National Vocational Qualification (NVQ) and the Caribbean Vocational Qualification (CVQ). The CVQ, which adheres to competency-based training, assessment, and certification, aligns with CARICOM-approved occupational standards, facilitating regional mobility with qualifications structured across five levels:*

- Level 1: Directly Supervised/Entry-Level Worker*
- Level 2: Supervised Skilled Worker*
- Level 3: Independent or Autonomous Skilled Worker*
- Level 4: Specialized or Supervisory Worker*
- Level 5: Managerial and/or Professional Worker*

*CVQs are awarded upon meeting standards in all required study units, while partial completion results in statements issued to candidates.*

*These training programs are primarily offered by four technical institutions distributed throughout St. Vincent and the Grenadines. In the academic year 2022-23, these institutions collectively experienced a notable increase in enrollment, rising by approximately 22% compared to the previous year, with a total of 248 students. Among these, male students accounted for nearly 60% (148 students), while female students constituted about 40% (100 students). The Barrouallie Technical Institute enrolled the largest cohort, comprising 39% of the total student body with 97 students.*

## **Tertiary Education**

*According to UNESCO, tertiary education builds upon secondary education by offering advanced learning opportunities in specialized fields. It encompasses both academic and advanced vocational or professional education, covering ISCED levels 5 to 8. This level of education is characterized by high complexity and specialization, aiming to prepare individuals for significant contributions to society, effective workplace functioning, and further academic pursuits.*

*The St. Vincent and the Grenadines Community College (SVGCC) is dedicated to the holistic development of its learners through such tertiary education. In 2005, the four divisions of SVGCC were merged into a single, self-governing institution. Previously, each division operated independently under the Ministry of Education. This merger was part of a government initiative to enhance universal access to education, and the unified SVGCC was granted statutory autonomy, independent of direct government oversight.*

*As of the 2022/23 academic year, SVGCC enrolled 2,035 students across its four divisions. The student body comprised approximately 686 males and 1,349 females. The Division of Arts, Sciences & General Studies had the highest enrollment, accounting for 45% of the total student population with 915 students, including 328 males and 587 females. Conversely, the Division of Teacher Education had the smallest enrollment, with just 106 students, of whom 9 were male and 97 were female.*

*Overall, female students significantly outnumber male students across all divisions. The Division of Technical & Vocational Education exhibited the smallest gender disparity, with males representing 48% (328 males) and females 52% (360 females) of its enrollment*

*SVGCC's ongoing growth and development reflect its commitment to providing high-quality tertiary education that meets the needs of a diverse student population. The college's efforts in expanding academic programs, infrastructure, and professional development opportunities underscore its role in preparing students for a dynamic and evolving society.*

## **Library Services**

*Library services in St. Vincent and the Grenadines have been established since 1893, evolving into a comprehensive network managed by the National Public Library, Archives, and Documentation Services. The network comprises twenty-four (24) libraries, including a National Archives and Documentation Centre. The main library, located in Kingstown, is supplemented by twenty-three (23) branch libraries distributed across the country.*

### **Documentation Centre and National Archives**

*The Documentation Centre, established in 1982, serves as a crucial repository of social and economic information sourced from government documents, policymakers, the public, the private sector, and researchers. In 1990, the National Archives was established to collect, organize, preserve, and store records and documents pertaining to the history of St. Vincent and the Grenadines.*

### **Programs and Services**

*The library system offers diverse programs and services catering to academic, recreational, and research needs. Current offerings include:*

- *Audio book service for the print disabled*
- *Access to EBSCO host databases*
- *Online Story time*
- *After School Programme (Remedial Reading, Math, Language Arts)*
- *Access to eBooks*
- *Library Caravan (outreach service)*
- *Book Club*
- *Storytelling for preschoolers*
- *Literacy programmes*
- *Homework Club*
- *HYPE (Helping Young People Excel) programme, held during the July-August vacation for children ages 11-15 years (exclusive to the National Public Library)*
- *CLAP for Fun Programme, held during the July-August vacation for children 5-12 years at the National Public Library and fifteen (15) branch libraries.*

### **Technology and Connectivity**

*The library system provides modern technological infrastructure to enhance access and usability:*

- *Two computer rooms with internet service*
- *Wi-Fi availability at the National Public Library, National Archives and Documentation Centre, and all branch libraries*
- *Website, Facebook, and Instagram platforms for information dissemination and event updates*

### **Library Management Software**

*The information management system, Alexandria, has been implemented at the National Public Library, Calliaqua Branch Library, Georgetown Branch Library, and Rose Hall Branch Library. Recently updated to a web-based version, Alexandria enables online catalogue search and personal library account access. Other branch libraries continue to use the manual Brown System for book issuing.*
